MAXIMUM *COMPATIBILITY* AND *FLEXIBILITY*

THIS MEDIUM CAPACITY FILLER HAS BECOME VERY POPULAR AMONG SMALL AND BIG MANUFACTURERS WORLDWIDE

Thanks to its design qualities, the filler can accurately adapt to many products, relying on the "easiness" and mechanical precision of the filling system. **Suitable for milk and plant-based drinks, but also for liquid egg and dry food it can also be the ideal solution for producers wishing to launch a new product on the market.**

RELIABLE

Few electronic components, high reliability and ease of maintenance: the fact that some models have been in operation, non-stop, for 30 years testifies to these qualities.

EASY TO USE

The intuitive touch screen panel facilitates operators' activities. Easy access in the machine make the work of maintenance technicians faster and more efficient.

COMPETITIVE INVESTMENT

Good value for money and low running costs make the RG50 more competitive than other packaging systems in its range.

FLEXIBLE

The filler can handle several packaging configurations (up to 8) and products, therefore fulfil the requirements of every production scenarios, ensuring efficiency over time.

DESIGN

Special considerations had been applied to cleanability, sanitation, reduced maintenance and ergonomics.

In line with our continuous improvement policy, all specifications are subject to change without notice. Illustrations, descriptions and technical specifications are not binding and may change.

MACHINE FEATURES

STANDARD FEATURES

- Flow-Meter Filler with aseptic AGV Valves
- Filling Valves with Adjustable Stroke
- Central Automatic Lubricating System
- Full AISI 304 and 316 Stainless Steel
- Recirculation Pump for CIP Solution
- Automatic carton size changeover
- Spare Parts Kit for First Startup
- Remote Connection for Technical Support
- Performance Monitoring via Cloud Platform (MaSH)

AVAILABLE OPTIONS

- Ultrasonic Screw Cap Applicator
- Double Wall Insulated Product Balance Tank
- Cartons and Caps Disinfection by Hydrogen Peroxide
- HEPA Filter for Caps Blower
- Date coder (Hot Printer or Ink-jet on outfeed conveyor)
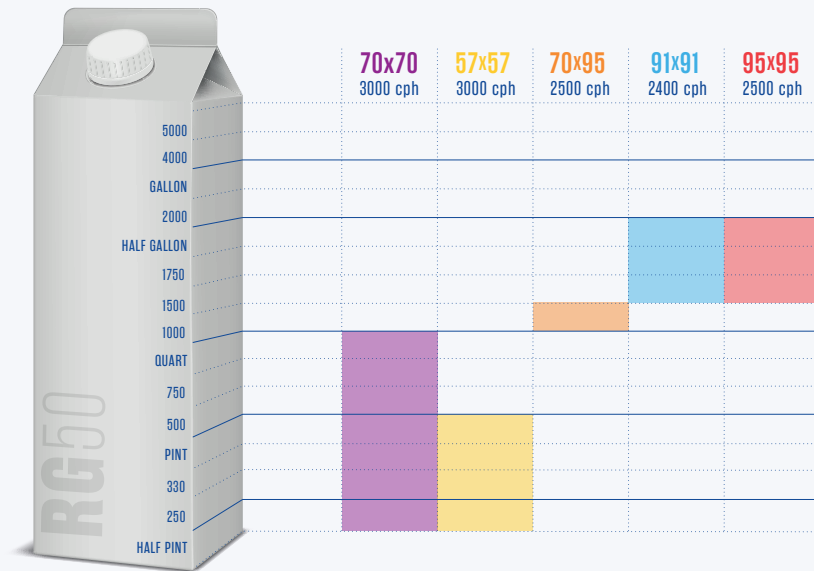

AUXILIARIES & END-OF-LINE

AUXILIARIES

- Galdi's Self CIP Independent Cleaning Unit

END-OF-LINE SOLUTIONS

- Carton Wrap Around
- Shrink-Wrapping Machine
- Tray Forming Machine
- Pick & Place
- Palletizing Robots & Stations
- Automation & Handling Systems

CAPACITY, CROSS SECTIONS AND VOLUMES

	70x70 3000 cph	57x57 3000 cph	70x95 2500 cph	91x91 2400 cph	95x95 2500 cph

Carton measurement scale (RG50): 5000, 4000, GALLON, 2000, HALF GALLON, 1750, 1500, 1000, QUART, 750, 500, PINT, 330, 250, HALF PINT

A GREAT FAMILY
FOR EVERY FORMAT,
FOR EVERY NEED!

Production speed varies according to product and carton characteristics. In line with our continuous improvement policy, all specifications are subject to change without notice. Illustrations, descriptions and technical specifications are not binding and may change.

MEASURES

2600 mm / 102 in
1300 mm / 51 in
4100 mm / 161 in
