

Here's the solution for **ESL dairy** and **beverage** drinks with a shelf-life of **21-28 days** and for vulnerable products like pasteurized liquid eggs. Step into the ESL market with a **ready-made bespoke solution!**

Our configuration for **ESL** products has been designed to considerably **reduce** the **risk of contamination** of cartons after filling.

Compared to aseptic packaging, it offers several **benefits**:

- The **nutritional and organoleptic properties** of the packaged ESL products are preserved
- The **quality** of the end product is significantly higher
- The cost of the filling machine and its maintenance is lower
- The **flexibility** of our filling machines allows switching to **different volumes** in less than **3 minutes**

Our Product Manager **CRISTIAN BALLESTRIN** (cristian.ballestrin@galdi.it) is available to provide all the information you need
